Built From the Selvedge Up.

PREMIUM DENIM MANUFACTURING & EXPORT — WHOLESALE CATALOG

FULL-CHAIN MANUFACTURING

You Have a Problem.
We Have the System to Solve It.

Most buyers piece together a supply chain from disconnected vendors — a denim mill here, a wash house there, a separate cut-and-sew shop. We control the full production chain ourselves, from yarn through to a finished, washed and exported garment.

04
EXPORT

YOU BRING THE REQUIREMENT. WE HANDLE THE PRODUCTION.

WHO WE ARE

A manufacturing partner — not a blank wholesaler.

Wear Supply Co. is a B2B apparel manufacturing and export partner built for premium, heavyweight streetwear, casual and denim brands. We take full ownership of the production chain — from raw material through to a finished, exported product ready for your customer.

We work sample-first: you approve a real, physical sample before we move to bulk production, so there's no guessing what you'll receive at scale.

WHAT SETS US APART

SAMPLE-FIRST MODEL

You approve a real sample before bulk production begins — no surprises at scale.

FULL-CHAIN CONTROL

Denim sourcing, cut-and-sew, washing and finishing — one accountable partner, start to finish.

LOW MOQ

10 pieces per wash, per style — low enough to test a concept properly.

PREMIUM FOCUS

Built for heavyweight, elevated streetwear, casual and denim brands — not commodity blanks.

EXPORT READY

Packed and prepared for international delivery.

HOW WE BUILD

From Denim to Finished Product.

01	**DENIM SOURCING**	Fabric selected and inspected against defined weight, weave and stretch standards.
02	**CUTTING**	Panels cut to pattern with tolerance checks on every ply.
03	**SEWING**	Construction assembled by section — seams, pockets, yokes, reinforcement points.
04	**WASHING & DISTRESSING**	Stonewash, acid wash, enzyme wash and distressing applied to spec.
05	**HARDWARE**	Rivets, shank buttons, zips and trims attached.
06	**FINISHING**	Patches, embroidery and labels applied.
07	**QUALITY CONTROL**	Every unit checked against the approved reference sample.
08	**PACKING**	Folded, polybagged or boxed to your distribution requirement.

TWO WAYS TO WORK WITH US

Two Ways to Build With Us

Whether you need premium denim to build your collection or a garment developed from the ground up, we can work around your requirements.

01 — READY-TO-ORDER DENIM

Start with our proven denim range.

Premium denim garments ready for branding, customization and resale.

AVAILABLE CATEGORIES

— Jeans — Straight Fit
— Jeans — Relaxed / Baggy Fit
— Jeans — Slim Fit
— Denim Jackets & Shirts

IDEAL FOR

Brands looking to launch quickly, test products, build collections or customize an existing silhouette.

YOU CHOOSE

Style → Wash → Size → Branding / Finishing

02 — CUSTOM DEVELOPMENT

Start with your idea.

Develop a garment around your own specifications, references or tech pack.

WE CAN DEVELOP AROUND

— Custom weight & stretch
— Custom fit & silhouette
— Custom washes & distressing
— Hardware & branding

IDEAL FOR

Brands that need a unique product rather than an existing style.

YOU PROVIDE

Reference / Concept → We Develop → Sample → Approval → Production

Not sure which route fits your brand? Talk to us.

THE RANGE

The Core Denim Range.

Majoring in jeans — straight, relaxed and slim fits — plus matching denim jackets and shirts, all built on our full-chain manufacturing capability.

01 STRAIGHT JEANS

02 RELAXED / BAGGY JEANS

03 SLIM JEANS

04 DENIM JACKET

05 DENIM SHIRT

Weight and wash specifications confirmed per style on request.

WASH & FINISHING

Whatever the Finish Requires.

From raw and unwashed to heavily distressed — stonewash, acid wash, enzyme wash, hand-sanding and more, all produced in-house.

STONEWASH

Classic worn-in softness and fade, mid to heavy.

ACID WASH

High-contrast marbled fading for a vintage look.

ENZYME WASH

Soft-hand finish with subtle, even fading.

DISTRESSED & RIPPED

Hand or machine distressing, rips and fraying.

WHISKERING & SANDING

Hand-applied fade lines at hips and knees.

GARMENT DYE

Overdyeing for black, colored or tonal denim.

HARDWARE & PATCHES

Rivets, shank buttons, leather and woven patches.

CUSTOM TECHNIQUES

Laser fading, coating and other finishes on request.

Have a technique in mind that's not listed? Ask — if it's producible, we can likely do it in-house.

DENIM

WHY WORK WITH US

A partner built for long-term supply.

01	**CONSISTENCY**	Reliable production across repeat orders.
02	**QUALITY**	Materials, construction and finishing that meet defined specifications.
03	**FLEXIBILITY**	Blank products or fully customized manufacturing.
04	**SCALE**	Production designed around growing requirements.
05	**PARTNERSHIP**	A supply partner, not just another vendor.

HOW TO ORDER

From First Message to Delivery.

Two simple paths, depending on whether you're ordering our denim or developing something custom.

FOR DENIM

01 Select your products

02 Choose washes & quantities

03 Add branding if required

04 Confirm order

05 Production & dispatch

FOR CUSTOM PRODUCTS

01 Send your reference / concept

02 Discuss specifications

03 Development & sampling

04 Approve sample

05 Bulk production

06 Quality control & dispatch

ONE PARTNER, START TO FINISH

We control the full chain — yarn, garment, brand, export — and work sample-first so you approve a real product before bulk production begins.

You Bring the Requirement.
We Handle the Production.

Need premium denim? Need a custom garment developed? Need a full-chain manufacturing partner? Send us your requirements — we'll take it from there.
